

The Caretakers' Website

In association with The Caretakers' website, Shout Out Safety are providing 4 key Health & Safety compliance courses at a specially discounted rate for school caretakers.

- Asbestos Awareness
- Working at Height
- Manual Handling
- COSHH Awareness

ACCREDITED TRAINING

Each of the courses is accredited by CPD and the Asbestos course is also accredited by IATP. Trainees can download an endorsed, personalised and unique certificate on successful completion.

NO DISRUPTION

Each of the courses is taken online so there is no need for the caretaker to leave the school site and the duration of each of the courses is no more than 30-45 minutes. All that is needed is a quiet place and a computer.

LOW COST

Off-site courses can cost as much as £125 but the Shout Out Safety courses are offering each course at just £20 once the unique caretaker discount is applied.

Effective, endorsed and certified compliance for £20 per course with no disruption or absence from the school site.

All Shout Out Safety training courses are produced as High Definition, broadcast-quality films which feature real people, actual case studies and highly-qualified medical and safety experts.

On average video learners score 37 percent better than text learners on a post-training test. On retention tests given a few days following the training session, video learners' scores were 45 percent greater when compared to the text group. (University of Twente, 2012)
